Spanish GCSE **C**

## Work Experience

### **Customer Experience**

#### **Advisor**

GANT - Cambridge

April 2023 to Present.

I started working at GANT in April of 2023. Since then, I have gained experience in a premium level of customer service. I have also learnt how the cashing up system works as well as been trusted to open and close the store on my own. I have become very confident with helping customers in person as well as over the phone.

### **Customer Advisor**

Argos - Hastings September  
2017 to April 2021

I started at Argos as a Christmas temp in 2017, however Argos decided to keep me on part time with a 12-hour contract (this was then increased to a 15-hour contract but I used to work an average of 30 hours a week). I worked both on the tills and in the stock room and I learnt a lot

about retail and customer service whilst working there. I was trusted to open the store and close store, setting Alarms to a set procedure. Furthermore, was involved with the delivery of Goods and allocation of stock within the Warehouse. I have been trained in all aspects of the role.

## Work Experience – Part Time Employment

### **Sales Assistant/Computer Engineer**

KC Computers - St Leonards-on-Sea March 2017 to June 2017

KC Computers LTD:

I worked for KC Computers for 3 months where I learnt a lot about Computers, I used to update software on Windows/IOS machines whilst also replacing components when necessary to make old machines feel brand new for the user. I also built a few systems whilst working here as well as setting the PC up for the customer (so installing the OS (operating system) and any software the customer requested).

My Job title whilst working at KC Computers was a Trainee Computer Engineer.

I enjoyed every moment working for this company and felt I learnt something new every day. I was only 16 at the time when I was working for this Company, and they had a lot to teach me. Due to the company downsizing they no longer had the resources to offer any adequate training, meaning I lost my job as they were unable to support me.

## Awards

### **Student of the year (ICT)**

July 2016

My course work was deleted 1 week before due date, and I managed to re-create the course work within the week and got the highest achievable grade.

## Additional Information

I am a very hardworking individual and I'm able to work confidently by myself or within a team. I can work under pressure and I'm very keen to gain experience and learn new skills.

Whilst being at work I have learnt to understand the importance of keeping your customers happy and satisfied. I also try to please the customer and aid them in every way I can. I am a very kind-hearted individual and I always try to put others happiness before mine. As seeing people happy makes me feel a sense of accomplishment. I am always up for a challenge so give me a chance!
